INTERNATIONAL Water Power & Dam Construction

INDEX 1983

VOLUME THIRTY-FIVE

ISSN 0306-400X

January to December 1983

INDEX

Items in italics are feature articles.
Roman numerals denote months.

A

Abu Dhabi—
Wadi Gulf concrete dam to be built by joint venture ..... VII 7

Afghanistan—
Faizabad hydro station to be completed ..... VIII 5

Albania—
Koman station ahead of schedule XI 5

Argentina—
Alcurá project to be finished early ..... VIII 8
Piedra del Aguila receives IDB's biggest loan ..... III 7

Australia—
Drought leaves years of problems and costs ..... XI 3
Franklin/Gordon dam, Protesters arrested at site of ..... II 3
Parrot's Feather weed, Cure found for ..... VII 5
Reversing of rivers considered in . III 4
Snowy scheme, Dangerously low storage for ..... II 5
Water resources to be improved.. VII 7

Austria—
Hydro potential of—Götz and Schiller ..... II 27
Storage reservoirs ..... VIII 62

B

Bangladesh—
Ganges dispute, Hope rises over . III 4
Irrigation to be improved..... III 8

Bhutan—
ADB approve loan for ..... XI 9

Bolivia—
Low flow synthesis by computer—Duba and Pitchen ..... X 52
XI 43

Brazil—
Altamira hydro complex in the Amazon region—Teixeira Duarte, Pettená and da Rocha Paes Filho ..... X 23
Cotingo river basin, Hydropower development of—Soos . X 37
Emborcaçao dam inaugurated ... V 3
Foz do Areia, Evaluating entrained air flow through aerators—de Sousa Pinto and Neidert ..... VIII 40
Tucurui, Ecological effects of—Monosowski ..... VII 11
Tucurui reservoir, tree clearance, work fails ..... VII 3
Tucurui, The use of rollcrete at ... IV 62
Water resources and the environment: development planning—Budweg ..... VII 23
Xingo, Equipment ordered for... III 7

Bulgaria—
Chaira scheme, World's highest head pump turbines at—Tsunoda, Harada and Yamakami ..... IV 17

Burma—
Dams help crops and people ..... III 7

C

Canada—
Churchill Falls hydro station, Tidal power could help dispute at ..... IV 3
Daniel Johnson dam, Design checked after cracks at ..... V 5
Garrison dam, Fears of impact of I 4
Mae Ngat, Thailand, to get assistance from ..... III 8
Slave river scheme, Alberta, is good for hydro, bad for ecology ..... II 5
Small-scale hydro plants, Five, planned in Ontario ..... I 5
US schemes put at risk by Canadian plans ..... IX 3

Cavitation *see* Hydraulics

China *see* People's Republic of China

Colombia—
Guavio disaster, Bad planning blamed for ..... XI 5
Small hydro schemes, Loan extended by IDB for ..... XII 9

Computers—
Flood warning system for PRC... XII 4
Hydro plant control, Microcomputers for—Elfstadius ..... XI 15
Hydro stations, Simulation and optimization of—Dondi and Schaffer ..... XI 20
Low flow synthesis, Bolivia—Duba and Pitchen ..... X 52
XI 43
Run-of-river energy, Computer optimization for—Diamant and Herepath ..... XI 17

Conference reports—
Environmental impact assessment, Crete, 1983 ..... VII 31
First European Conference on Small Hydro, Monaco, 1982... II 46
III 49
IV 52
Safety of dams, New perspectives on, USA, 1983 ..... X 47
Twelfth World Energy Conference, India, 1983 ..... XII 35
Waterpower '83, USA, 1983..... XI 52

Construction equipment—
Automatic all-purpose welder .... X 56
Industrial couplings and fittings . III 58
Loading shovel ..... X 58
Piling clamp..... II 52
Pump, new range of slimmed versions ..... XII 52
Rough terrain crane ..... I 41
Small single tool screw compressor..... I 42
Variable counter-balance excavator..... I 44

Cyprus—
Kalavasos dam, Work begins at .. VI 9

Czechoslovakia—
Gabčikovo-Nagymaros, Hungarian/Czech scheme revived..... XII 3
Gabčikovo-Nagymaros scheme officially postponed..... V 7
Small hydro may help country's needs ..... II 45

D

Dams, Concrete—
Arch dams, Elastic piling theory for..... IX 56
Chungju, Korea's largest..... V 60
Daniel Johnson, Canada, Design checked after cracks discovered at..... V 5
El Cajon design, Honduras: a retrospective view—Kreuzer... X 16
Energy dissipating crest splitters for—Mason..... XI 37
Laparan, Three-dimensional finite element analysis for—Hamon, Pouyet and Carrère .. VIII 19
Menkanshao, China, Thin arch dam resists ice and floods—Cai ..... VIII 37
Wadi Gulf, Abu Dhabi, joint venture to build..... VII 7

Dams, Earth—
Analysing anchor loads in rockfill dams—Brown and Pells .... VIII 50
Asphaltic concrete membranes in embankment dams—Bunn .... I 22
Bourguiba, Tunisia, Regional development aided by..... VIII 30
Ciskei dam, South Africa, to be ready early..... VI 5
Directional blasting in rockfill dam construction—Nedriga, Pokrovsky and Lushnov ..... VI 37
Embankment dams, Materials for—Penman..... I 15
Embankment dams, USSR, Use of polyethylene and steel membranes in—Glebov and Kuznetsov ..... I 25
Emborcaçao, Brazil inaugurated V 3
Geotextiles for dams, Use of, in France—Loudière, Fayoux, Houis, Perfetti and Sotton..... I 19
High embankment dams, Materials for—Vutsel, Zaretsky, Vorontsov, Chernilov and Chumichev..... VIII 33
Kalavasos dam, Cyprus, Work begins at ..... VI 9
Khao Laem, Thailand, Instrumenting—Ohdedar and Dawes ..... XII 31
Salal dam, India, Foundation treatment for—Chadha ..... VIII 53
Susitna hydropower, USA, Design contract awarded for... I 5
Tous dam failure, Spain ..... I 5
Tucurui, Brazil, The use of rollcrete at ..... IV 62

Dams, General—
Atatürk high dam, Turkey, Tenders opened for ..... XI 9
Baishan dam, China, Impounding begins at ..... II 3
Chiew Larn dam, Thailand, Invitation to bid announded for . II 11
Construction contracts, Zimbabwe and Mozambique, French firm to build ..... VIII 8
Dam-building programme, Spain, accelerated by drought . X 5
Environmental impact studies for reservoirs and dams—Canter..... VII 18
Flood protection dam, USSR, First foundations laid for..... II 5
Fontenelle, USA, Seepage cause sought at..... VIII 5

Franklin/Gordon dam, Australia, Protesters arrested at site of ... II 3
Garrison dam, USA, project setback ... II 3
Garrison dam, Canada, Fears of impact of ... I 4
Hydropower, Recent developments in—Gordon ... IX 21
Kohodiar, India, partially breached by floods ... VIII 3
Monitoring systems, Automated control of ... IV 62
Nam Choan, Thailand, faces opposition ... V 5
Pa Mong project, between Thailand and Laos, Dispute postpones Mekong meeting on ... VIII 7
Rolled concrete in Japan, Experience in the use of—Hirose ... III 40
Safety of dams—Blind ... V 17
Safety recommendations from ICOLD's past president ... II 5
San Rogue and Chico River Basin projects, Philippines, reappraised ... VI 5
S. Arabia to have four structures built by Egypt ... XII 4
Schwarzenbach dam, Germany, Modernisation of ... I 40
Seismic behaviour of gravity dams founded on low shear strength soil—Tucovic ... I 28
Tembeling dam project, Malaysia abandons ... V 5
US schemes put at risk by Canadian plans ... IX 3
Water resources, Korea, Development of—Kim ... XII 23
Water supply, Korea, Improvement of ... XII 9
Water supply, Nigeria, scheme begins ... IV 7

Dam safety—
Financial aspects of—Hotes ... I 37
Laws declared in Spain ... IX 4
New perspectives on (Report of MIT Conference, 1983) ... X 47
Safety of dams—Blind ... V 17

Dinorwic—
Civil Engineering aspects of ... IV 26
First unit on stream at ... I 3
Mechanical equipment for ... IV 29

Drought *see* water supply

E

Egypt—
Aswan High dam, Runners strengthened at ... VI 7
Dams for S. Arabia, four to be built by Egyptians ... XII 4
Degradation of the river Nile—Shalash ... VII 37
VIII 56
Evaporation, Fish to fight ... IV 4

Electrical equipment—
A.c. machines, Recent developments in Japan—Suzuki and Niwa ... III 27
ASEA, Sweden, centenary ... IX 4
Battery charging generator ... III 58
Fibre-optics to reduce generator breakdowns ... X 56
Small capacity schemes, Characteristics of generators for—Miyakawa ... III 36
Fast-response voltage regulator ... IV 64
Industrial generator set ... I 41
Papua New Guinea, Small hydro stations hampered by machines in ... IV 6
Solid state welding control ... II 52
Submersible generators ... IV 64
Electrical supply—
Power systems, Dynamic behaviour of ... IX 56

Energy resources—
Hydropower, Recent developments in—Gordon ... IX 21
Tidal power reviewed—Wilson ... IX 13

Environment—
EDF fined, France ... III 3
Evaporation, Egypt, Fish to fight ... IV 4
Evaporation losses, India, Cetyl alcohol to combat ... IV 4
Degradation of the river Nile, Egypt—Shalash ... VII 37
VIII 56
Franklin dam, Tasmania, Controversy continues over ... III 3
Franklin-Gordon dam, Tasmania, dispute will go to High Court ... V 3
Franklin/Gordon dam, Tasmania, Protesters arrested at site of ... II 3
Franklin/Gordon dam, Tasmania, disputed resolved ... IV 6
Garrison dam, Canada, Impact feared of ... I 4
Garrison dam, USA, project setback ... II 3
Idukki hydroelectric project, India, Ecological system affected by ... VII 4
Impact assessment: problems and prospects (Conference report) ... *VII 31*
Impact studies for dams and reservoirs—Canter ... VII 18
Mayna hydropower station, USSR, to protect ecology ... XI 6
Nam Choah, Thailand, faces opposition ... V 5
Nuclear power could be next option in Tasmania ... X 5
Parrot's Feather weed, Cure found for ... VII 5
Silent Valley, India, Dispute over VII 14
Slave river scheme, Canada, good for hydro, bad for ecology ... II 5
Snail darter, USA, no longer a threatened species ... IV 6
Tembeling dam, Malaysia abandons project ... V 5
Tembeling, Malaysia, abandoned—Rachagan ... VII 43
Tucurui, Brazil, Ecological effects of—Monosowski ... VII 11
Water resources, Brazil, Development planning in—Budweg. VII 23

Ethiopia—
Finchaa hydropower station to be uprated ... XI 3

F

Finance—
IDA to fund hydro scheme for Tanzania ... XI 9
ADB aids Bhutan ... XI 9
ADB loan for Indonesia to help agriculture ... XI 9
Dam safety, Financial aspects of—Hotes ... I 37
El Cajon, Honduras, Commonwealth loan for ... XII 9
Flood control, Tunisia, Loan granted for by IBRD ... IX 9
Fortuna hydro project, Panama, Private banks back ... VIII 8
Hydropower cost estimates—Gordon ... XI 30
Hydropower plant, Orissa, India, Funding arranged for ... VII 7
IBRD borrowing fee reduced ... VII 7
Indus, Pakistan, Reservoirs aided on ... V 9
Irrigation works, Morocco, to be rehabilitated by loan ... VI 9
Lusushwana river hydro plant, Swaziland, Loan for ... XII 9
Mae Ngat, Thailand, Contract awarded for ... V 9
Mahaweli project funded by Japan ... XI 9
Mahaweli project, Sri Lanka, Aid sought for ... IX 9
Manantali dam, Mali, Arab/German loan for ... I 8
Marsyandi hydro, Nepal, Germany contributes to ... IV 7
Mini Hydropower Sector project, Malaysia, Loan for ... II 11
Mostar hydro, Yugoslavia, World Bank provides help for ... VIII 8
Mtera project, Tanzania, IDA approved credit for ... IX 9
Piedra del Aguila, Argentina, gets IDB's biggest loan ... III 7
Ruziza river plant, Rwanda/Zaire border, Arrangements complete for ... I 8
Thirteenth Power Project, Indonesia, Loan extended by IBRD VIII 8
Uttar Pradesh, India, farms get IDA help ... VI 9
World Bank's new loan arrangements ... III 7

Flood control—
Automated rain gauges development ... I 39
Hydroelectric plants, Operational routing for—Mimikou ... IX 24
Loan granted to Tunisia ... IX 9
Protection dam, USSR, first foundations laid ... II 5

Floods—
Computer warning system for PRC ... XII 4
Kohodiar dam, India, partially breached ... VIII 3

Flow control—
Self-acting automatic valve ... I 41
Water control by automatic gates—Berar ... I 35

France—
Earth dams, Use of geotextiles in—Loudière, Fayoux, Houis, Perfetti and Sotton ... I 19
EDF fined ... III 3
Grand Maison, Tunnelling for ... IV 62
High-head pump-turbines: Experience in—Casacci, Roche and Jarriand ... II 31
Hydropower, French view on ... VIII 62
Laparan dam, Three-dimensional finite element, analysis of—Hamon, Pouyet and Carrère ... VIII 19
Montezic pumped-storage plant—Bergeret, Jarriand and Caillot ... IV 37
V 48

Franklin dam, Tasmania—
Controversy continues ... III 3
Dispute resolved ... IV 6
Dispute will go to High Court ... V 3
Legislation planned for dispute ... VI 5

G

Gambia—
River plan, New member joins in XII 3

Gates and valves—
Tainter gates, Pin lift hoist for ... V 58
Water level controlled automatically ... VII 50

Governors—
P.i.d. regulation, Advantages of—Ransford ... I 31

Germany—
Itaparica station, Brazil, largest Francis turbine for, supplied by Germans ... IV 4

Manantali dam, Mali, gets Arab/German loan ..... I 8
Marsyandi, Nepal gets German contribution ..... IV 7
Schwarzenbach dam, Modernisation of ..... I 40

Greenland—
Hydro studies in—Langager ..... II 43

Guyana—
Tumatumari hydropower development, Third stage reached of ..... X 5

H

Honduras—
El Cajon, Commonwealth loan for ..... XII 9
El Cajon design: a retrospective view—Kreuzer ..... X 16

Hungary—
Forecasting rainfall ..... V 60
Gabčikovo-Nagymaros scheme with Czechoslovakia revived .. XII 3
Gabčikovo-Nagymaros scheme officially postponed ..... V 7
Kisköre dam, Changing the shape of the storage lake at ..... I 40
Water management in ..... IX 56

Hydraulics—
Automated collection of data .... XI 56
Cavitation or wear erosion—Xue-Zhong ..... XII 44
Control of waterhammer ..... XI 56
Foz do Areia, Brazil, Evaluating entrained air flow through aerators—de S Pinto and Neidert ..... VIII 40
Francis turbines, Stability in ..... I 40
Low flow synthesis by computer, Bolivia—Duba and Pitchen .... X 52
Modelling pressure fluctuations . V 60
NEL and DHL agree on flow problems ..... VI 41
Open-channel flow analysis, unsteady phenomena ..... VIII 62
Operational flood routing for plants—Mimikou ..... IX 24
Preventing cavitation damage to hydraulic structures—Hamilton ..... XI 40
XIII 48
Reattached flow from rectangular outlets arranged in a line—Pani and Dash ..... V 44
Reservoir sedimentation—Graf . IV 45
Silt-laden current, Behaviour of—Graf ..... IX 33

Hydro potential—
Austria, Prospects for—Götz and Schiller ..... II 27
Greenland, Studies in—Langager ..... II 43
Karnali river, Nepal, study of proposed hydro ..... III 5
Spain, Prospects for ..... II 24

Hydro resources—
Aerial mapping by computer and laser ..... XII 52
Hydro stations, Simulation and optimization of—Dondi and Schaffer ..... XI 20
Pak Mun, Thailand, French to study hydro prospects ..... XI 6
River plan, Gambia, New member joins in ..... XII 3
Run-of-river energy, Computer optimization for—Diamant and Herepath ..... XI 17
Twelfth World Energy Conference, India, 1983, encourages hydro development (Conference report) ..... XII 35
Waterpower 1983, USA (Conference report) ..... XI 52

I

ICOLD—
Executive Meeting, London 1983 X 7
Safety recommendations from past president ..... II 5

Incidents and failures—
Colorado floods, USA, Damage estimated for ..... IX 6
Guavio disaster, Colombia, Bad planning blamed for ..... XI 5
New Zealand, Canal failure controversy in ..... III 5
Rangitaiki canal, failure caused by water leakage ..... VIII 3
Safety recommendations from ICOLD's past president ..... II 5
Teton dam, USA, Analysis of the flood ..... VII 52
Tous dam failure, Spain ..... I 5
Tous dam failure, Spain, Engineers jailed over ..... III 3
Tous dam, Spain, should be rebuilt ..... VI 3
Tyee Lake project, Tunnel collapses at ..... XII 4

India—
Evaporation losses, Cetyl alcohol to combat ..... IV 4
Ganges dispute, Hope rises over . III 4
Gulf of Kutch, Tidal power investigated at ..... VI 46
Himalayan waters to be studied by joint commission ..... VIII 7
Idukki hydroelectric project, Ecological system affected by . VII 4
Irrigation system to be improved VI 9
Kohadiar dam, Gujurat, partially breached by floods ..... VIII 3
Loktak project completed ..... I 4
Orissa hydropower plant, Funding arranged for ..... VII 7
Orissa State, New major station planned ..... IX 3
Pong station, Last units commissioned at ..... IV 6
Salal dam, Jammu and Kashmir, Foundation treatment for—Chadha ..... VIII 53
Second Orissa Irrigation Project to be implemented ..... XII 9
Silent Valley, Dispute over ..... VII 14
Uttar Pradesh state, Farms get IDA help in ..... VI 9
Water sharing, States agree on ... VII 3

Indonesia—
ADB loan to help agriculture ..... XI 9
Asahan hydro project—Miyachi and Miyake ..... VIII 59
IX 46
Jakarta's hydro, Drought threatens ..... II 5
Thirteenth Power Project, Loan extended by IBRD for ..... VIII 8

Instruments—
Builder's level ..... I 42
Data logger with channel expansion ..... VII 48
Data transmitter uses telephone line ..... VII 48
Developments and trends—Bordes and Keryell ..... V 33
Flowmeter for cement ..... II 52
Gauge pressure transducer ..... II 52
Guri dam, Venezuela, Instrumenting the ..... V 29
Gyroscopic theodolite ..... X 58
Implanted doppler flowmeter .... IV 64
Input-output station ..... VII 49
Kaplan (turbine) runners, Laser measurements for—Brand and Selbach ..... II 21
Khao Laem dam, Thailand—Ohdedar and Dawes ..... XII 31
Manifold mounting system ..... X 58
Obstruction sensor ..... III 58
Open channel flow transmitter ... II 52
Power disturbance analyzer ..... I 42
Programmable controller ..... VII 49
Radio alarm to keep operators alert ..... VII 50
Remote data acquisition ..... I 44
Soil tests, Automated processing for ..... IV 64
Tachometric relay ..... I 44
Turbine efficiency monitoring system—Reynolds and Lowell V 21
Water supply, Telecontrol for .... IX 56
Iran—
Siah Bisheh pumped-storage schemes share one reservoir .... V 7

Irrigation—
Aquifer model, Philippines, for the improvement of schemes... VII 52
Bangladesh improves systems .... III 8
Burmese dams help crops and people ..... III 7
Manantali dam, Mali, Arab/German loan for ..... I 8
Mount Hermon's snow to help farms in Israel ..... VII 4
Rehabilitation of works in Morocco ..... VI 9
River reversal considered in Australia ..... III 3
Second medium scale project, Thailand, Aid for ..... I 8
Second Orissa project for India .. XII 9
System to be improved in India ... VI 9
Tunisia, Central project expands in ..... VI 9

Israel—
Dead Sea project delayed ..... IV 4
Dead Sea project opposed by Jordan ..... III 4
Mount Hermon's snow to irrigate farms ..... VII 4

Ivory Coast—
Sassandra river hydro scheme, Go-ahead secured for ..... IV 6
Soubre scheme to be implemented ..... IX 9

J

Japan—
A.c. machines, Recent developments in—Suzuki and Niwa ... III 27
Asian rivers to be surveyed ..... III 5
Bulb units, Large capacity, in—Ibeda ..... III 19
High-head machines, Investigations at Toshiba's laboratories, in ..... III 31
3Owi power station, Uprating of. III 3
Rolled concrete, Experience in the use of—Hirose ..... III 40

Jordan—
Dead Sea projects, Israel opposed ..... III 4

K

Korea—
Chungju, Country's largest concrete dam ..... V 60
Water resources, Development of—Kim ..... XII 23
Water supply improves ..... XII 9

L

Laos—
Pa Mong dam, Thailand, Dispute postpones Mekong meeting ..... VIII 7

Lesotho—
Highlands scheme, South Africa agrees on ..... VIII 8

M

Mahaweli, Sri Lanka—
Aid sought for project ..... IX 9
Maduru Oya, Ancient sluiceway—Benson, Harland and Pinkerton ..... XII 26
Project started ..... I 8
River diversion project, Contract awarded to the Japanese ..... XI 9
US involved at scheme ..... IV 4
Victoria dam, Delay overcome at I 3

Malaysia—
Mini Hydropower Sector project, Loan for ..... II 11
Perak's two stations will add 192 MW to grid—Bondale ..... IX 38
Tembeling abandoned—Rachagan ..... VII 43
Tembeling dam project abandoned ..... V 5

Mali—
Manantali dam, Sahel, Arab/German loan for ..... I 8

Materials for dams—
Asphaltic concrete membranes in embankment dams—Bunn .... I 22
Embankment dams—Penman ... I 15
Embankment dams, USSR, with polyethylene and steel membranes—Glebov and Kuznetsov ..... I 25
Expansion joint fillers ..... I 41
Geotextiles in French earth dams, Use of—Loudière, Fayoux, Houis, Perfetti and Sotton ..... I 19
High tensile strength steel for penstocks in Japan—Maruyama ..... III 33
Reinforced earth, Application of I 40
Rolled concrete, Japan, Experience in the use of—Hirose ..... III 40
Soil materials, Choice of, for embankment dams—Vutsel, Zaretsky, Vorontsov, Chernilov and Chumichev ..... VIII 33
Tucurui, Brazil, The use of rollcrete at ..... IV 62

Membranes *see* Materials for dams

Mexico—
La Angostura plant, Oscillatory problems at—Guarga, Hiriart and Torres ..... X 33

Modernisation *see* Rehabilitation

Morocco—
Irrigation works to be rehabilitated following loan ..... VI 9

Mozambique—
Construction contracts, French firm to build ..... VIII 8

Multipurpose schemes—
Bourguiba dam, Tunisia, regional development aided ..... VIII 30
Chiew Larn dam, Thailand, Invitation to bid announced for .. II 11
Magat river project, Philippines—Viola and Wilhelm ..... XII 17

N, O

Nepal—
Himalayan waters to be studied by joint commission ..... VIII 7
Karnali river, study of proposed hydro ..... III 5
Marsyandi station, Germany contributes to ..... IV 7

Nicaragua—
Larreynaga hydro scheme, Government to assess ..... IX 3

Nigeria—
Water supply contract, Kwara State, awarded by the government ..... XI 9
Water supply scheme begins ..... IV 7

Norway—
Folgefonni hydroelectric scheme, Design changes at ..... VI 46

New Zealand—
Canal failure controversy in ..... III 5
Clyde power station, contracts for units awarded ..... II 11
Rangitaiki canal, failure caused by water leakage ..... VIII 3

P

Panama—
Fortuna hydro, Private banks back project ..... VIII 8

Pakistan—
Energy shortage suffered in ..... IV 3
Indus reservoirs aided ..... V 9
Tarbela hydropower extension project approved by ADB ..... II 11

Papua New Guinea—
Small hydro stations hampered by machines in ..... IV 7

People's Republic of China—
Baishan dam, Water impounding begins at ..... II 3
Baishan hydro, Installation of units underway at ..... IX 4
Computer flood warning system for ..... XII 4
Hydroelectric power generating equipment for Colombia supplied by ..... XI 5
Hydropower Protocol, Annex II, to be signed with USA ..... III 7
Hydrological stations, More, to be installed in ..... VI 5
Menkanshao thin arch dam resists ice and floods—Cai ..... VIII 37
Small hydro in ..... IV 62
Tianshengqiao project, American firm to give advice on ..... VI 7

Philippines—
Magat river multipurpose project—Viola and Wilhelm ..... XII 17
Pumped-storage, First scheme in—Polintan and Pellaschiar .... IV 13
San Roque and Chico River Basin, schemes re-appraised ... VI 5

Pipes and penstocks—
High tensile strength steel—Maruyama ..... III 33
Pipe joining, Method developed for ..... I 39

Planned hydro—
Altamira hydro complex, Brazil, in the Amazon region—Teixeira Duarte, Pettená and Rocha Paes Filho ..... X 23
Bradley project, USA, Alaska to go ahead with ..... XI 6
Clyde power station, New Zealand, Contract for units awarded for ..... II 11
Cotingo river basin, Brazil, Hydropower development of—Soos ..... X 37
Dead Sea, Israel, project delayed IV 4
Gabcikovo-Nagymaros, Hungarian-Czech scheme revived .. XII 3
Grudie-Talladale scheme, Scotland, Hydro Board to build .... VI 7
Highlands project, Lesotho and S. Africa agree on ..... VIII 8
Hydropower, India, new station for Orissa ..... IX 3
Hydropower prospects for Spain II 24
Hydropower plant, India, State of Orissa, Funding arranged for ..... VII 7
Hydropower protocol, US-China, Annex II to be signed ... III 7
Inguri river, USSR, fifth station started on ..... IV 4
Kabarega Falls, Uganda to export energy of ..... III 4
Larreynaga, Nicaragua, government to assess project ..... IX 3
Mae Ngat, Thailand, Canadians to assist with ..... III 8
Mbashe project, S. Africa, Contract to be awarded for ..... II 11
Mostar plant, Yugoslavia, World Bank provides help ..... VIII 8
Mtera project, Tanzania, credit approved by IDA for ..... IX 9
Piedra del Aguila, Argentina, gets IDB's biggest loan ..... III 7
Sassandra river scheme, Ivory Coast, Go-ahead secured for .. IV 6
Slave river scheme, Canada, is good for hydro, bad for ecology ..... II 5
Soubre scheme, Ivory Coast, to be implemented ..... IX 9
Sredneyeniseyskaya plant for Siberia, USSR ..... IX 6
Susitna hydropower, USA, design contract awarded for ... I 5
Susitna project, USA, Licence accepted for ..... IX 6
Susitna project, USA, Licence reviewed for ..... VII 4
Susitna, USA, design delayed .... V 9
Tarbela hydropower extension, Pakistan, approved by ADB ... II 11
Tianshengqiao project, China, American firm to give advice VI 7
Tumatumari hydropower development, Guyana, Third phase reached on ..... X 5
Turukhansk hydro, USSR, next Station for Krasnoyarsk ..... IV 6
USSR to build 6 GW scheme ..... XII 3

Poland—
Old stations restructured in ..... IX 6

Portugal—
Duero river route to be opened to Spain ..... IV 3
Hydropower, Prospects for large reservoirs in—Laginha Serafim ..... II 40

Pumped storage—
Bajina Basta, Yugoslavia, complete ..... I 5
Bath County tunnel, USA, near completion ..... VI 3
Chaira scheme, Bulgaria, World's highest head pump turbines for—Tsunoda, Harada and Yamakami ..... IV 17
Dinorwic, Wales, Civil Engineering aspects of ..... IV 26
Dinorwic, Wales, First unit on stream at ..... I 3
Dinorwic, Wales, Mechanical equipment for ..... IV 29
Drakensberg, South Africa, Constructing the pressure tunnels for—de Witt ..... VI 13
Grand Maison, France, Tunnelling for ..... IV 62
Montezic, France's most powerful scheme—Bergeret, Jarriand and Caillot ..... IV 37
V 48
Philippines, First scheme for—Polintan and Pellaschiar ..... IV 13
Pump-turbine design, Advances in—Fisher and Degnan ..... IV 21
Prospects for development ..... V 60
Siah Bisheh project, Iran, schemes share one reservoir .... V 7

USSR's first stations under construction ..... VIII 5

Q, R

Rainfall—
Drought, Five-year-long, in Spain, to end ..... XII 3
Hungary, Forecasting in ..... V 60
Hydrological stations, China, more to be installed ..... VI 5
Water surplus, USA, jeopardises dam building programme ..... X 3

Rehabilitation—
Poland, Old stations restructured in ..... IX 6
Schwarzenbach dam, Germany, Modernisation of ..... I 40

Remote operation—
Hydro plant behaviour, Numerical analysis of ..... IV 62

Research and development—
Aerial mapping by computer and laser ..... XII 52
Anchor resin, Development of ... I 39
Automated rain gauges developed ..... I 39
Fibre-optics to reduce generator breakdowns ..... X 56
High-head machines, Investigations at Toshiba's laboratories in Japan ..... III 31
NEL and DHL agree on flow problems ..... VI 41
Pipe joining, method developed for ..... I 39
Radio alarm to keep operators alert ..... VII 50
Tainter gates, Pin lift hoist for .... V 58
Water level, controlled automatically ..... VII 50

Reservoirs—
Carsington, UK, Geological problems at ..... V 60
Environmental Impact studies for—Canter ..... VII 18
Hydropower in Portugal: prospects for—Laginha Serafim ... II 40
Hydraulics of sedimentation—Graf ..... IV 45
Storage schemes in Austria ..... VIII 62
Tucurui, Brazil, Tree clearance work fails at ..... VII 3

Romania—
Hydro capacity increases ..... VIII 7
Rwanda—
Ruziza river plant, Rwanda/Zaire border, Financing complete for ..... I 8

S

Safety *see* Dam safety

Saudi Arabia—
Dams, Four, to be built by Egyptians ..... XII 4

Scotland—
Grudie-Talladale scheme, Hydro Board to build ..... VI 7

Sedimentation *see* Silt and sedimentation—

Silt and sedimentation—
Hydraulics of reservoir—Graf ... IV 45
Silt-laden current, Behaviour of—Graf ..... IX 33

Seismic behaviour—
Gravity dams founded on low shear strength soil ..... I 28
Hydrodynamic effects of events XI 56

Small hydro—
Characteristics of generators for small capacity schemes—Miyakawa ..... III 36
China's schemes ..... IV 62
Colombia's plans for ..... XII 9
Czechoslovakia's needs may be helped ..... II 45
Drumjohn, Scotland, 2 MW equipment bought for ..... XI 9
IEC looks at—Teichmann ..... XI 23
International standardization of schemes—Teichmann ..... V 41
Malaysian villages receive loan for ..... II 11
Papua New Guinea, Problems with machines in ..... IV 7
Point Loma, San Francisco, USA, Turbine to be installed at sewage plant ..... IX 4
Problems and benefits of small-scale hydro (Conference report) ..... II 46
III 49
IV 52
Small-scale hydro, Canada, Five plants planned for ..... I 5
Sri Lanka to build more schemes . VII 4
Whale Rock, USA, Micro hydro plant feeds largest utility ..... V 5
Third World, The role of small schemes in the ..... IV 62
Turbines for ..... VI 46

Soil mechanics—
Collapsible soils, Problems related to ..... VII 52

South Africa—
Ciskei dam to be ready early ..... IV 5
Drakensberg, constructing the pressure tunnels—de Witt ..... VI 13
Drought area to get canal ..... VII 4
Highlands scheme, Lesotho agrees on ..... VIII 8
Mbashe project, Transkei, Contract to be awarded for ..... II 11
Palmiet river scheme in progress . VII 7
Thermal stations, Transvaal, Water to be re-supplied for ..... VIII 8

Spain—
Dam safety laws declared ..... IX 4
Drought, Five-year-long, ends ... XII 3
Drought spurs dam-building programme ..... X 5
Duero river, Route to be opened by Portugal on ..... IV 3
Hydropower, Prospects for ..... II 24
Tous dam failure ..... I 5
Tous dam failure, Engineers jailed over ..... III 3
Tous dam should be rebuilt ..... VI 3
Water supply to be improved in .. VIII 5

Spillways—
Equipment for high-head ..... XI 56

Sri Lanka—
Maduru Oya, Ancient sluiceway—Benson, Harland and Pinkerton ..... XII 26
Mahaweli project, Aid sought for ..... IX 9
Mahaweli project, contract awarded to the Japanese ..... XI 9
Mahaweli's biggest project started ..... I 8
Mahaweli, US involved at ..... IV 4
Mini hydro schemes, More, to be built in ..... VII 4
Victoria dam, Delay overcome at I 3

Swaziland—
Hydro plant, Lusushwana river, Loan for ..... XII 9

Sweden—
ASEA's centenary marked ..... IX 4

T

Tables—
Major dams of the world—1983 . VIII 43

Tanzania—
IDA to fund hydro scheme ..... XI 9
Mtera project, Credit approved by IDA for ..... IX 9

Tarbela—
Tarbela hydropower extension, Pakistan, approved by ADB... II 11

Tasmania—
Franklin dam, Controversy continues over ..... III 3
Franklin/Gordon dam, Dispute resolved over ..... IX 6
Franklin-Gordon dam, Dispute will go to High Court ..... V 3
Franklin-Gordon dam, Legislation planned for dispute over .. VI 5
Nuclear power could be next option for ..... X 5
Pieman hydro scheme, Progress at ..... V 7

Thailand—
Chiew Larn dam, Invitation to bid announced for ..... II 11
Khao Laem dam, Instrumenting the—Ohdedar and Dawes ..... XII 31
Mae Ngat, Canadians to assist with ..... III 8
Mae Ngat, Contract awarded for V 9
Nam Choan dam faces opposition ..... V 5
Pa Mong dam, Laos, Dispute postpones Mekong meeting on VIII 7
Pak Mun project, French to study hydro prospects for ..... XI 6
Second Medium Scale Irrigation Project gets aid ..... I 8

Tidal power—
Churchill Falls hydro station, Canada, Dispute could be resolved by ..... IV 3
Gulf of Kutch, India, Investigation at ..... VI 46
Penzhina Bay, USSR, plant started ..... I 3
Review of projects—Wilson ..... IX 13

Tunisia—
Bourguiba dam aids regional development ..... VIII 30
Central Irrigation Project expands in ..... VI 9
Flood control, Loan granted for . IX 9

Tunnels—
Anchor resin, Development of ... I 39
Drakensberg, South Africa, Constructing the pressure linings—de Witt ..... VI 13
Economical design for a pressure lining—Sungur ..... VI 26
Excavation of large underground openings: a numerical simulation—Borsetto and Peano ..... VI 28
Grand Maison, France ..... IV 62
Nurek, USA, last tunnel finished for ..... XI 3
Steel linings for hydro tunnels—Jacobsen ..... VI 23
Techniques of ..... I 40
Tyee Lake project, USA, Portion of the ceiling collapses ..... XII 4

Turbines—
Aswan High dam, Egypt, Runners strengthened by triangles at ..... VI 7
Baishan, China, Installation of units underway ..... IX 4
Bulb units, Japan, Large capacity of—Ueda ..... III 19
Chaira scheme, Bulgaria, The

world's highest head pump turbines for—Tsunoda, Harada and Yamakami ..... IV 17
Efficiency monitoring system of—Reynolds and Lowell ..... V 21
Forecasting corrosion and protection for ..... VII 52
Francis units, Hydraulic stability in ..... I 40
High-head machines, Japan, Investigations at Toshiba's laboratories ..... III 31
High-head pump-turbines: French experience—Casacci, Roche and Jarriand ..... II 31
Hydro machinery, Maintenance of ..... VI 40
Itaparica hydro station, Brazil, largest Francis turbine completed by Germany ..... IV 4
La Angostura plant, Mexico, Oscillatory problems at—Guarga, Hiriart and Torres .... X 33
Laser measurements for Kaplan runners—Brand and Selbach .. II 21
Pong station, India, Last units commissioned ..... IV 6
Pump-turbine design, Advances in—Fisher and Degnan ..... IV 21
Small hydro plants ..... VI 46
USSR starts large unit manufacture ..... VII 4

Turkey—
Atatürk high dam, Tenders opened for ..... XI 9

U

Uganda—
Kabarega Falls hydro project to export energy ..... III 4

UK—
Carsington reservoir, Geological problems at ..... V 60
Dinorwic, Wales, First unit on stream at ..... I 3
Drumjohn, Scotland, 2 MW equipment bought for ..... XI 9
Sulby dam, Isle of Man ..... VIII 62

Uprating of plants—
Boundary hydroelectric project, USA, Turbine order for ..... IX 9
Finchaa hydropower station, Ethiopia ..... XI 3
Owi power station, Japan ..... III 3

USA—
Bath County tunnel, Virginia, near completion ..... VI 3
Boundary hydroelectric project, Turbine order for ..... IX 9
Bradley project, Alaska, to go ahead ..... XI 6
Colorado floods, Damage estimated for ..... IX 6
Dam building, California, Excessive rainfall jeopardises plans for ..... X 3
Fontenelle dam, Wyoming, Cause of seepage sought at ..... VIII 5
Garrison dam, Project setback at II 3
Hydropower Protocol, Annex II, to be signed with China ..... III 7
Mahaweli, Sri Lanka, Involvement of US construction company at ..... IV 4
Point Loma, San Francisco, Turbine to be installed at sewage treatment plant at ..... IX 4
Reagan approves ten new water projects ..... I 4
Schemes put at risk by Canadian plans ..... IX 3
Snail darter no longer a threatened species ..... IV 6
Susitna hydro, Alaska, Licence accepted for ..... IX 6
Susitna Hydroelectric project, Licence reviewed for ..... VII 4
Susitna hydropower, Design contract awarded for ..... I 5
Susitna project, Design delayed for ..... V 9
Teton dam collapse, Analysis of the flood following ..... VII 52
Tianshengqiao project, China, Advice to be given by US on .... VI 7
Tyee Lake project, Alaska, Tunnel collapses on ..... XII 4
Whale Rock micro hydro plant feeds largest utility ..... V 5

USSR—
Embankment dams with polyethylene and steel membranes—Glebov and Kuznetsov ..... I 25
Flood protection dam, Leningrad, first foundations laid .... II 5
Hoa Binh and Tri Anh hydro plants, Vietnam, gets help from ..... I 4
Hydropower station, 6 GW, Siberia to build ..... XII 3
Inguri river, Fifth station started on ..... IV 4
Mayna hydropower station to protect environment ..... XI 6
Nurek, Last tunnel finished for .. IX 3
Penzhina Bay, Tidal plant begins at ..... I 3
Rivers, Reversing the flow of ..... V 53
Sredneyeniseyskaya plant planned for Siberia ..... IX 6
Storage plants under construction for the first time ..... VIII 5
Turbines and generators, manufacture of large units started ... VII 4
Turukhansk hydro, next station planned for Krasnoyarsk ..... IV 6

V

Venezuela—
Guri dam, Instrumentation of.... V 29

Victoria dam *see* Mahaweli

Vietnam—
Hoa Binh and Tri Anh hydro plants get Soviet help ..... I 4

W, X

Wales—
Dinorwic, Civil Engineering aspects of ..... IV 26
Dinorwic, Mechanical equipment for ..... IV 29

Waterhammer *see* Hydraulics

Water resources—
Hungary, Management of, in ... IX 56
Improvement plan announced in Australia ..... VII 7
Japan to survey Asian rivers ..... III 5
Korea, Development of, in—Kim ..... XII 23

Water supply—
Australia, drought leaves years of problems and costs ..... XI 3
Ibar conservancy project, Yugoslavia, concern expressed over. X 5
India, States agree on sharing ..... VII 3
Korea, improvement of ..... XII 9
Kwara state, Nigeria, contract awarded by the government for ..... XI 9
Nigeria, scheme begins on ..... IV 7
Palmiet river development, South Africa, scheme in progress ..... VII 7
South Africa, Drought area to get canal in ..... VII 4
Soviet rivers, Reversing the flow of ..... V 53
Spain, Improvement in systems in ..... VIII 5
Telecontrol for ..... IV 56
Thermal stations, South Africa, water to be re-supplied ..... VIII 8

Y

Yugoslavia—
Bajina Basta complete ..... I 5
Ibar water conservancy project, Concern expressed over ..... X 5
Mostar hydroelectric plant, World Bank provides help for . VIII 8
Soça project almost complete .... XI 6

Z

Zaire—
Ruziza river plant, Rwanda/Zaire border, Financing complete for ..... I 8
Zimbabwe—
Construction projects, Mozambique, French firm to build ..... VIII 8

International abstracts

Aquifer model, Philippines, for improved irrigation ..... VII 52
Arch dams, Elastic theory for .... IX 56
Automated collection of hydrological data ..... XI 56
Carsington reservoir, UK, Geological problems at ..... V 60
Chungju, Korea's largest concrete dam ..... V 60
Collapsible soils, Problems related to ..... VII 52
Corrosion and protection, Forecasting (for turbines) ..... VII 52
Folgefonni hydroelectric scheme, Norway, Design changes at ..... VI 46
Gulf of Kutch, India, Tidal power investigated at ..... VI 46
High-head spillways, Equipment for ..... XI 56
Hydrodynamic effects of seismic events ..... XI 56
Hydropower, French view on .... VIII 62
Modelling pressure fluctuations . V 60
Open-channel flow analysis, Unsteady phenomena for ..... VIII 62
Power systems, Dynamic behaviour of ..... IX 56
Pumped-storage development, Prospects for ..... V 60
Rainfall, Hungary, Forecasting in ..... V 60
Storage reservoirs in Austria ..... VIII 62
Sulby dam, Isle of Man ..... VIII 62
Teton dam, USA, Analysis of the flood ..... VII 52
Turbines for small hydro plants .. VI 46
Waterhammer, Control of ..... XI 56
Water management in Hungary .. IX 56
Water supply, Telecontrol for .... IX 56

Comment

British dam builders and ICOLD ... VIII 17
Japan's industry ready for expansion ..... III 17
Who can make a tiger? ..... III 17

Correspondence
